Letter of Transmittal

Honourable Don Morgan, Q.C.
Minister of Education

Dear Minister Morgan:

The Board of Education of Regina School Division #4 of Saskatchewan is pleased to provide you and the residents of the school division with the 2015-16 annual report. This report outlines activities and accomplishments of the school division and provides audited financial statements for the fiscal year September 1, 2015 to August 31, 2016.

Respectfully submitted,

Katherine Gagne

Katherine Gagne
Chairperson

Introduction

This annual report presents an overview of the Regina School Division #4 of Saskatchewan (Regina Public Schools) activities and results for the fiscal year September 1, 2015 to August 31, 2016.

The annual report provides a snapshot of Regina Public Schools, its governance structures, students, staff, programs and facilities. It also includes results and analysis of a number of indicators that contribute to student success.

In addition to detailing the School Division's activities and performance, this report outlines how Regina Public Schools is deploying the Provincial Education Sector Strategic Plan in relation to its School Division plan. Also included is a report from management endorsing the financial overview and audited financial statements.

Financial statements included in this report have been audited by an independent auditor following the Canadian Generally Accepted Accounting Standards.

School Division Profile

About Us

Regina Public Schools (RPS) is one of the largest school divisions, in terms of student population, in the province of Saskatchewan and is one of four urban school divisions.

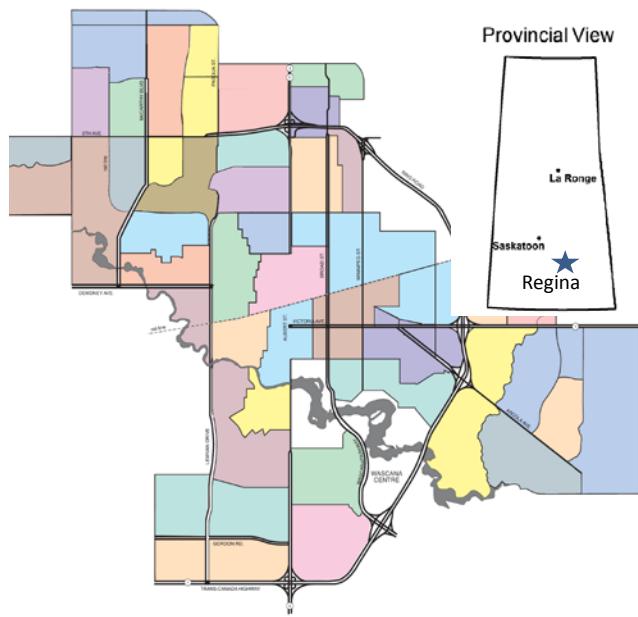

RPS educates more than 22,000 students in 41 elementary schools, eight high schools and one adult campus. The Division is also affiliated with three associate schools offering religious-based programming.

Regina Public Schools is governed by an elected board of seven trustees, each representing one of seven subdivisions in the City of Regina.

Trustees are elected for four-year terms and are responsible for the policy direction that guides the School Division. At the school level, each school is represented by a School Community Council that works with the school to support and engage community involvement in educational programming.

For a more detailed map of Regina Public Schools, showing the seven subdivisions, please visit <http://www.rbe.sk.ca/board-education>.

The School Division serves all public ratepayers within the boundaries of the City of Regina. In addition, the School Division offers access to a select group of programs to students from adjoining school divisions, which either do not offer those programs, or for geographic

Division Vision Statement and Shared Values

The mission of Regina Public Schools is *to instil the value of knowledge, the dignity of effort and the worth of the individual*. This mission, guided by the Shared Values and directed by the Strategic Plan, provides a clear direction for all activity in the School Division. Regina Public Schools' Shared Values are the foundation of all interaction within the Division. These Values, developed through extensive community collaboration and adopted in 2000, are *I belong; I want to know; I am responsible; and I respect*. The Shared Values give direction and frame what goes on in the schools. Students learn to take responsibility for themselves and for others in the community, both in and out of school.

Every school community celebrates and embraces multiculturalism and respects individual spiritual beliefs. The Shared Values mirror the goals of public education – transcending differences and providing an equal opportunity to recognize, enrich and enhance the unique gifts and talents of all students.

Program Overview

Regina Public schools teach the Saskatchewan Core Curriculum through the required areas of study and an extensive range of other programs. RPS champions inclusive practices: helping all students, regardless of their skills and needs, to learn and grow within their own neighbourhood schools and with their peers. Elementary schools provide adaptations for students requiring additional supports and enrichment programs for students striving for academic challenge. Modified programs at the high school level support students in mastering basic objectives. The Advanced Placement program is available at all high schools to meet the needs of students destined for post-secondary education or who require additional academic challenges.

Regina Public Schools provides early learning experiences to three- and four-year olds in 51 Prekindergarten/Preschool programs.

French Immersion programming is offered at two high schools and six elementary schools, including two single-track elementary French Immersion programs. Cree language instruction is offered at five elementary schools and one high school.

The Division provides services and programs for all students, whether they are advanced learners or require intensive supports. With a focus on equitable opportunities and smooth transitions, Regina Public Schools also offers programs for high school students to easily access specialized career, skills and higher-education focused instruction. Middle Years Practical and Applied Arts (PAA) programming is provided for Grades 6 through 8 students with students provided access to cross-curricular integrated middle level PAA programs, hands-on project choices, and the required resources to support integrated PAA activities. For adolescents and young adults re-engaging in the learning process, the Adult and Victoria Campuses provide quality instruction and proven results in a non-traditional setting.

Campus Regina Public provides students in every high school with access to additional diverse academic, skilled trades, applied arts and post-secondary pathway programming. Based in the Cochrane Campus facility, Grades 11 and 12 students from across the city can participate in semester-long specialized instruction, without having to move from their neighbourhood high school. This programming works alongside the proven successful programming offered at the Regina Trades and Skills Centre. These programs provide smooth transitions for students and prepare them for life after high school, regardless of the career direction they choose.

The Family of Neighbourhood Schools model was implemented during the 2015-16 school year as an outcome of a multi-stakeholder online consultation with parents, students, and staff on new strategies to enhance equitable opportunities for all high school students. Making learning an equitable experience in every high school begins with working with elementary schools to help create a sense of community between elementary schools and their neighbourhood high school.

All Regina Public schools offer extracurricular programs. At both the elementary and high school levels, this provides opportunities in the arts, sports and recreation outside of the classroom environment.

Regina Public Schools has a well-coordinated planning process which enables alignment of the strategic plan and all School Division planning activities with those of the Education Sector Strategic Plan (ESSP). The Regina Public Schools Strategic Plan (2014-17) provides overall direction for everything the Division does and serves as an anchor to ensure that all Division planning processes are in alignment with each other.

The Strategic Plan defines Regina Public Schools' mission, vision, and guiding principles – provided earlier in this annual report. In addition to these foundational elements, the Strategic Plan includes strategic directions, board priorities, and key strategies to achieve board priorities.

Regina Public Schools' enduring priorities are:

- Ensuring that students achieve grade-level growth performance in literacy and numeracy
- Ensuring that First Nation, Métis and Inuit student outcomes are equitable compared to those of all students
- Ensuring that students with enhanced learning needs have access to timely and appropriate programs and services and access to the curriculum instructional strategies and appropriate supports
- Applying technology-enhanced learning to support digital fluency and achievement
- Planning and supporting successful engagement and graduation of high school students
- Planning and supporting successful introduction, attachment and engagement of elementary students
- Demonstrating effective governance, leadership and stewardship
- Ensuring non-instructional program and service expenditures are connected to student success

The Division's plan includes six core strategies:

- Developing a First Nations, Métis and Inuit Achievement Initiative
- Implementing a comprehensive program to improve reading performance at all grade levels
- Increasing the number of Kindergarten students who enter Grade 1 ready to learn
- Increasing the number of students who achieve grade-level performance in literacy and numeracy
- Improving student attendance and credit attainment as a means of increasing graduation rates
- Ensuring all current and future program and service expenditures contribute positively to student success

The diversity of Regina's neighbourhoods, student learning needs, and levels of community support for schools across the Division dictate that a differentiated and incremental approach to target setting and goal attainment is necessary at the local school level. Therefore, Learning Improvement Plans at the school level are designed to achieve realistic, contextualized and incremental improvement in student results.

A copy of the Regina Public Schools 2014-17 Strategic Plan is available at www.rbe.sk.ca.

Governance

Regina Public Schools is governed by an elected board of seven trustees, each representing one of seven subdivisions in the City of Regina. *The Education Act, 1995* gives the Board of Education the authority to “administer and manage the educational affairs of the school division” and to “exercise general supervision and control over the schools in the school division.” Trustees are elected for four-year terms and are responsible for the policy direction that guides the School Division.

Regina Board of Education Trustees were elected by the public ratepayers of the City of Regina or acclaimed on October 26, 2012. Board of Education members at August 31, 2016 are:

Subdivision 1	Dr. Jane Ekong
Subdivision 2	Aleana Young
Subdivision 3	Dale West
Subdivision 4	Cindy Anderson
Subdivision 5	Carla Beck*
Subdivision 6	Katherine Gagne (Board Chair)
Subdivision 7	Dr. Kathleen O'Reilly

* Trustee Carla Beck resigned, as of May 2016, after being elected to the Provincial Legislature.

A list of the remuneration paid to board members is provided in Appendix A.

Trustees are (back row, l. to r.) Dr. Kathleen O'Reilly, Dale West, Aleana Young, and (front row, l. to r.) Dr. Jane Ekong, Katherine Gagne, Carla Beck*, and Cindy Anderson.
(RPS 2012)

School Community Councils

Regina Public Schools is responsive to the communities it serves through an extensive local governance structure, including the operation of School Community Councils (SCC) in all schools. Each school is required to elect an SCC and to work to ensure that SCC can be engaged in the learning program at the school.

85.4% of schools have the required elected and appointed members of their SCC. Funds are allocated to SCCs to support these efforts. Increasing participation from parents and community members is encouraged, as is a focus on educational priorities.

The Education Regulations, 2015 require school divisions to undertake orientation, training, development and networking opportunities for their SCC members. Each year, Regina Public Schools conducts a forum, for this purpose, involving all of its SCCs. *Let's Get Connected*, a parent forum for school community councils and parents, was held on Tuesday, April 26, 2016 at Campus Regina Public. The evening was well attended with approximately 125 participants, including parents, school-based administrators, Division office administration and school board trustees.

Participants had an opportunity to take part in two of three sessions, including: *Connecting with your Child in Today's Digital Society*, *Schools & SCCs Working Together for Kids*, and *Truth & Reconciliation: Connecting through Aboriginal Education*.

SCCs face the challenge of having sufficient membership. This is an issue in many schools. Principals work closely with existing SCC members to encourage additional members to participate. Roles and responsibilities within some school SCCs have been adjusted to accommodate and promote additional school community engagement.

	2010-11	2011-12	2012-13	2013-14	2014-15	2015-16
Parents/Guardians	72%	75%	73%	73%	70%	70%
Community Members	3%	2%	4%	4%	4%	4%
Other*	25%	23%	23%	23%	26%	26%

*Includes principals, teachers and student representatives

Grants to SCCs are provided to support school Learning Improvement Plans. Grant funding is provided at a rate of \$2,000 for each SCC (with \$3,500 allocated to schools with enrolments greater than 900 students). These grants were expended in support of Education Sector Strategic Plan focus areas in 2015-16.

The School Division in the Community

Regina Public Schools is an important member of the Regina community. Relationships with school families are critical to the success of students. The Division continually seeks not only to maintain and enhance current partnerships, but also to develop new partnerships to enhance supports for students.

Community and Parent Involvement

The staff in Regina Public Schools work every day to involve parents, guardians, and community members in the school community. Forums are held annually, hosted by the Division, where School Community Council members are invited to participate in discussions regarding a number of topics. These functions provide an opportunity for higher levels of engagement for both parents and the community in general.

All the schools in the Division provide opportunities to engage with parents and members of the community. For example:

- Families and the community play a critical role in supporting student success and achievement in literacy. Schools put emphasis on building partnerships with families and the community and work together to provide literacy experiences that are meaningful and respectful. Family literacy events are one of the many opportunities that bring the school and the community together. These events consist of providing fun and engaging literacy activities that help to support reading outside of the school.
- Many schools have engaged in work in response to the Truth and Reconciliation Calls for Action. These have included a two-day Treaty 4 conference building understanding for students through community presenters, and an event entitled “Building Your Home Fire,” which included identifying and challenging schools and communities to respond to the Calls for Action. Another project included a Community Heroes Calendar Project acknowledging inspiring leaders, and an “Honouring our Parents” night rather than the typical Meet the Teacher/Open House event. The School Division hosted community screenings of videos pertaining to Regina Indian Industrial School (which included a discussion around the designation of the cemetery as a heritage site), *The Greenlake Story*, and *The Pass System*.
- Regina Public Schools, in partnership with the First Nations University of Canada, held a powwow to honour Treaty 4 graduates.

Community Partnerships

Regina Public Schools seeks to build strong partnerships with a variety of organizations in Regina. These partnerships are a critical component in efforts to support both student learning and the successful transition of students into and through the system.

The Division partners with the Ministries of Social Services and Justice (Corrections and Policing Division) and the Regina Qu'Appelle Health Region to meet the social, physical and psychological needs of students. Only through a collaborative approach can students who require intensive supports meet their highest potential.

The Division is a member of the Regina Regional Intersectoral Committee. This committee develops and implements integrated service delivery responses to children, youth and families and works to further human services integration. This support includes facilitating the collection, distribution, analysis, and community engagement in the use of data to improve evidence-based decision making; promoting and facilitating community development strategies; and making recommendations to facilitate innovations in the delivery of human services.

For example, three programs have been developed to support students. The first is TRiP: The Regina intersectoral Partnership. The objectives of this program are:

- early identification and prevention initiative for children 11 years old or younger (11 UI), and youth 12 years of age and older (12 & Up), who are exhibiting behaviours that may put them at risk for criminal involvement or an increased risk of victimization;
- focused on a coordinated service support; and
- creating a reduction of barriers to pro-social activities, increased school engagement, and ultimately reduced vulnerability for children, youth and their families.

The second program is the Early Years Family Centres. Three centres, two located in Regina Public School facilities (Scott Collegiate and Dr. L.M. Hanna Elementary School) and one at Miller Catholic High School provide opportunities for parents and children, newborn to age 6, to engage in supports for literacy development, health care and child development along with play programs.

The third program is the Summer Success Literacy Camps in partnership with the United Way. Regina Public Schools ran five two-week camps, one focusing on Prekindergarten and Kindergarten students, while the remaining four focused on students in grades 1 through 3. The camps targeted vulnerable students, allowing them additional reading instruction to prevent summer slide.

The Division has also partnered with Regina Catholic Schools, Prairie Valley School Division and the File Hills Qu'Appelle Tribal Council, post-secondary institutions, business and industry to support the Regina District Industry Education Council (RDIEC). The RDIEC provides a venue for an effective long-term partnership between Industry and Education. The role of the RDIEC is to provide career development opportunities for youth, educators and career practitioners.

Programming at Campus Regina Public provides students from all Regina Public high schools the opportunity to enroll in half-day classes at the Cochrane Campus where curriculum is taught with an experiential approach. Many industry partnerships are involved in delivering this model, including those with SaskTel, Regina Qu'Appelle Health Region, Regina Police Service, Avante Garde Beauty Training Specialist, Capital Automotive Group, Conexus Credit Union, Praxair, Lincoln Welding, Habitat for Humanity, U of R Early Childhood, and Regina Fire and Protective Services.

The Division is also collaborating with the City of Regina and Regina Public Library to build the Mâmawêyatitân Centre. The purpose of this project, which will be the new home of Scott Collegiate, is to provide an integrated approach to service delivery to the residents of north central Regina.

Strategic Direction and Reporting

Introduction of the Education Sector Strategic Plan

Members of the education sector have worked together to develop an Education Sector Strategic Plan (ESSP) for 2014-2020. The ESSP describes the strategic direction of the education sector and its priorities and outcomes align the work of school divisions and the Ministry of Education. The plan is expected to shape a new direction in education for the benefit of all Saskatchewan students.

2015-16 was the second year of deployment of the 2014-2020 ESSP.

Enduring Strategies

The Enduring Strategies in the ESSP are:

- Culturally relevant and engaging curriculum
- Differentiated, high-quality instruction
- Culturally appropriate and authentic assessment
- Targeted and relevant professional learning
- Strong family, school, and community partnerships
- Alignment of human, physical, and fiscal resources

Improving First Nations and Métis Student Engagement and Graduation Rates and Following Their Voices

OUTCOME:

By June 30, 2020, collaboration between First Nations and Métis and non-First Nations and Métis partners will result in significant improvement in First Nations and Métis student engagement and will increase the three-year graduation rate from 35% in June 2012 to at least 65%.

PRIORITY:

In partnership with First Nations and Métis stakeholders implement the Following Their Voices Initiative (Phase 1).

School division goals aligned with the First Nations and Métis Student Engagement and Graduation Rates outcome and the Following Their Voices priority	Work collaboratively with Ministry personnel to align practices with the focus of Following Their Voices (FTV). Regina Public Schools, Superintendent and Supervisor of Aboriginal Education will work with FTV team to increase the current monthly attendance by 5% each month.
School division actions taken during the 2015-16 school year to achieve the targets and outcomes of the First Nations and Métis Student Engagement and Graduation Rates outcome and the Following Their Voices priority	<ul style="list-style-type: none">• Regina Public Schools monitored and provided regular attendance data to FTV team.• Shared data with staff to analyze, disaggregate, and identify attendance trends.• Incorporated a full-time Aboriginal Advocate teacher at Scott Collegiate to monitor the achievement levels of FNMI students on a regular basis.• Ensured attendance data is sent bi-weekly to advocate.• Removed fiscal barriers such as lunch and transportation cost by providing lunch passes and bus tickets to students in need.
Measures for Improving First Nations and Métis Student Engagement and Graduation Rates and Following Their Voices	
Average Final Marks Teacher-assigned grades/levels of achievement are important indicators of student performance in school. Course grades are used for grade promotion and graduation decisions, to meet entrance requirements for post-secondary education, to determine eligibility for scholarships and awards and by some employers when hiring. The following displays average final marks in selected secondary-level courses for all students, and by non-FNMI and FNMI student subpopulations in the Division, along with provincial results for each category.	

Average Final Marks in Selected Secondary-Level Courses, 2015-16

Notes: Results for populations of fewer than 10 students have not been reported to avoid identifying individuals or very small groups of students (nr). FNMI students are those who choose to self-identify as First Nations (Registered/Treaty/Status Indian, Non-Status Indian), Métis, or Inuit/Inuk. Non-FNMI students are those who do not identify as FNMI or I, however this category may include FNMI students who choose not to self-identify.

Source: Ministry of Education, 2016

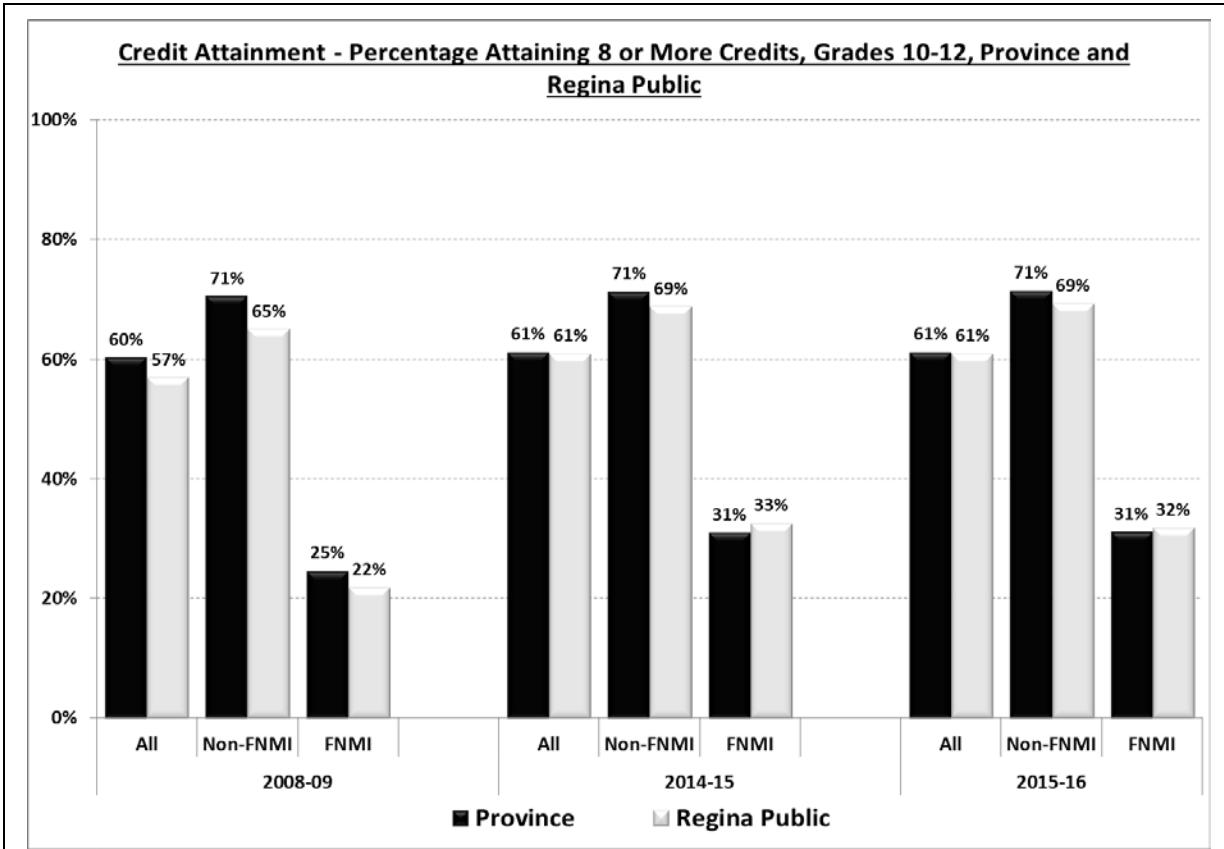

Analysis of results

In 2015-16, across all courses identified, the average grades (by subject) for students in Regina Public Schools (RPS) range from 62.4% to 74.4%. When compared with 2014-15 results (reported last year), increases of 1.6% to 3.9% are evident in all courses but one. There remains a gap between Non-FNMI and FNMI students in results for all subjects identified in this measure. However, there is an increase of 1.9% for English Language Arts B10, 4.5% for Foundations and Pre-calculus 10 and 2.5% for English Language Arts 20. Given the high school focus on credit attainment and Aboriginal Advocates, this is encouraging. In all subjects, but one, the difference between the provincial and Division averages has narrowed. In one case (Math Foundations 20), Regina Public Schools results are higher than the provincial average.

Credit Attainment

Credit attainment provides a strong predictive indicator of a school system's on-time graduation rate. Students receiving eight or more credits per year are more likely to graduate within three years of beginning Grade 10 than those who do not achieve eight or more credits per year.

The following displays the credit attainment of secondary students attaining eight or more credits per year for all students, and by non-FNMI and FNMI student subpopulations in the Division, along with provincial results for each category.

Notes: Proportions are calculated as the percentage of students enrolled at the secondary level on September 30 attaining eight or more credits yearly. Results for populations of fewer than 10 students have not been reported to avoid identifying individuals or very small groups of students (nr). FNMI students are those who choose to self-identify as First Nations (Registered/Treaty/Status Indian, Non-Status Indian), Métis, or Inuit/Inuk. Non-FNMI students are those who do not identify as FNM or I, however this category may include FNMI students who choose not to self-identify.

Source: Ministry of Education, 2016

Analysis of results

Saskatchewan high school students must accumulate, on average, eight credits per year to graduate within a three-year period after beginning Grade 10. Recent provincial results have been relatively stable with approximately 61% of all students attaining eight or more credits per year. Since 2008-09, the proportion of all RPS students attaining eight or more credits has steadily increased to the point of being at par with the provincial rate. In 2015-16, the percentage of all Regina Public students attaining eight or more is consistent with the provincial average. A positive aspect in the credit attainment data are the Grade 11 results (not displayed in the table above) where there is an increase in the percentages of students attaining eight or more credits each year of 3.9% for all students and 6.8% for FNMI students. The average number of self-identified FNMI students attaining eight or more credits yearly in 2015-16 is slightly above the provincial rate. Non-FNMI results continue to be slightly below the provincial results but show a slight increase over 2014-15. Regina Public Schools is encouraged with FNMI results and very hopeful that results for all students and specifically FNMI students will steadily increase over time.

Reading, Writing, Math at Grade Level and Saskatchewan Reads

OUTCOME:

By June 30, 2020, 80% of students will be at grade level or above in reading, writing and math.

PRIORITY:

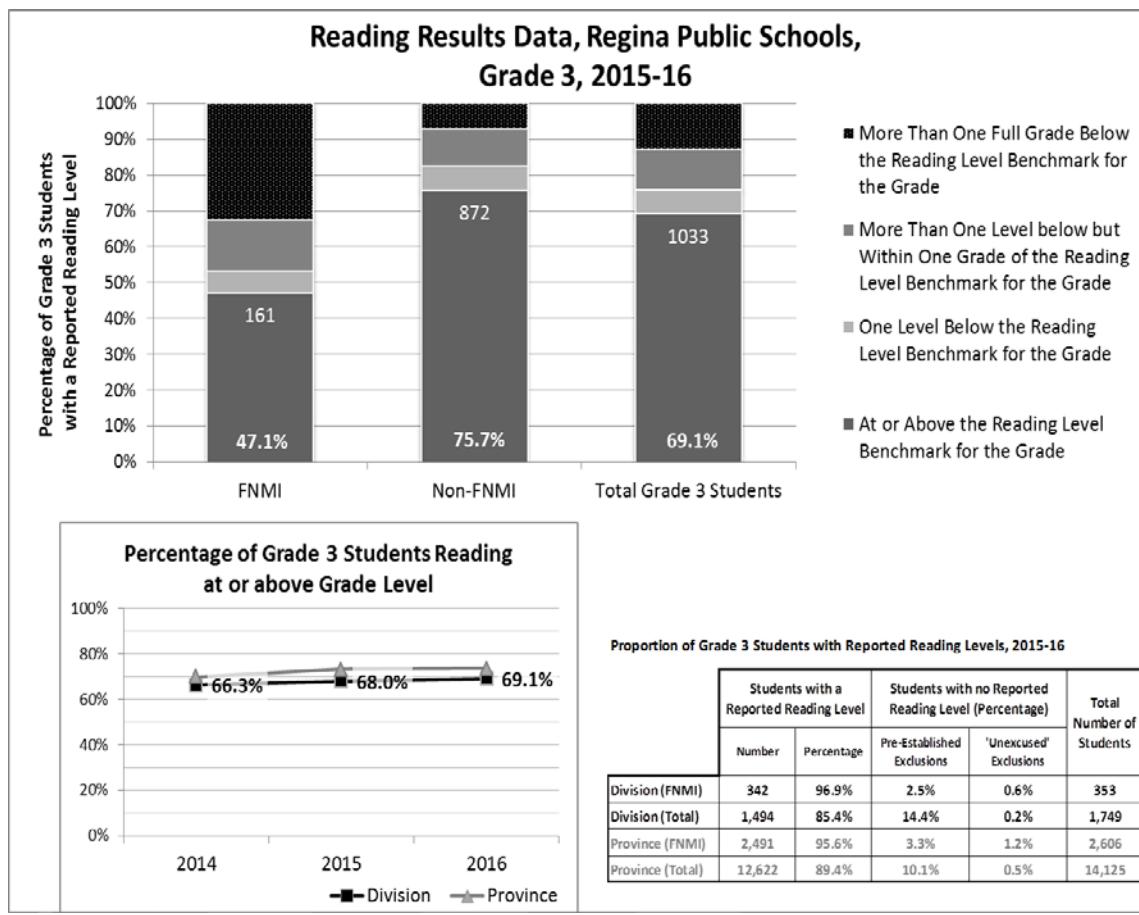

Implement a refined set of provincial high impact reading assessment, instruction and intervention strategies (Saskatchewan Reads).

School division goals aligned with Reading, Writing and Math at Grade Level outcome and the Saskatchewan Reads priority	<p>Regina Public Schools' priority strategy is to increase the number of students who increase grade-level proficiency in literacy and numeracy. This includes using provincial and Division assessment information to identify learning needs and design appropriate instruction, identifying and articulating a common set of essential learning skills for each grade level, providing professional learning opportunities specific to these areas, and building capacity for providing classroom based interventions. Regina Public Schools has a goal of 95% of students achieving grade level in reading, writing and math by 2017.</p>
School division actions taken during the 2015-16 school year to achieve the targets and outcomes of the Reading, Writing, Math at Grade Level outcome and the Saskatchewan Reads priority	<ul style="list-style-type: none">• Reading and writing professional development provided to teachers in their second year of service.• Sask Reads webinar provided to Grades 1-3 teachers and elementary school-based administrators.• Arranged school-based administrator representation on the Provincial Administrator Reading Team.• Introduced <i>Sask Reads for Administrators</i> to all elementary administrators.• Targeted consultant support provided for FNMI students and family engagement for reading success at four elementary schools.• Professional development provided for learning resource and early reading Intervention teachers on Fountas and Pinnell Benchmark Assessment and Continuum of Literacy Learning.• Year Two of Summer Success Literacy Camps offered for vulnerable Grades 1-3 students at four selected schools that focused on reading intervention and the addition of a PreK/K program at one of the schools.• Professional Development provided for Grades 4 and 5 teachers focusing on assessing and teaching for mathematical proficiency.• A focus on Grade 2 readers in schools provided with Early Reading Intervention teachers.

Measures for Reading, Writing and Math at Grade Level and Saskatchewan Reads

Proportion of Grade 3 Students Reading at or Above Grade Level

Grade 3 reading levels are considered a leading indicator of future student performance. The following bar graph displays the percentage of Grade 3 students (FNMI, non-FNMI, all) by reading level grouping. The charts below the graph indicate the percentage of Grade 3 students in the province reading at or above grade level, as well as the proportion of Grade 3 students with reported reading levels.

Notes: Reading level groupings are based on provincially developed benchmarks. The percentages of students in each of the reading level groupings were found using the number of students with reported reading levels as the denominator in the calculations. Students who were excluded or who did not participate in the reading assessment were not included in the denominator for these calculations. Results for populations of fewer than 10 students have not been reported to avoid identifying individuals or very small groups of students. FNMI students are those who choose to self-identify as First Nations (Registered/Treaty/Status Indian, Non-Status Indian), Métis, or Inuit/Inuk. Non-FNMI students are those who do not identify as FNMI or I, however this category may include FNMI students who choose not to self-identify.

Source: Ministry of Education, 2016.

<h3 style="text-align: center;">Analysis of results</h3>	
<p>Regina Public Schools shows a slight improvement in year-over-year reading levels of all Grade 3 students with 69.1% of all students reading at or above the grade level benchmark, representing a 1.1% increase from 2015. For FNMI subpopulation, the results for this year are 47.1% of students read at or above the grade level benchmark, representing a 0.3% increase from 2015. For Non-FNMI students, 82% of students read within one level of the provincial benchmark level and for FNMI students, 53% read within one level of the provincial benchmark.</p> <p>While there is still a discrepancy between Non-FNMI and FNMI achievement levels, disaggregated cohort data is worth noting. The Grades 2-3 cohort (not included in the table above) shows an increase of 1.3% of FNMI students reading at the determined benchmark level at the end of Grade 3. The Grades 1-2 cohort shows an increase of 4.6% of FNMI students reading at or beyond the determined benchmark level at the end of Grade 2. The Grades 1-2 cohort data indicates an increase of 4.6% for FNMI students. This is very encouraging given the Division focus on Levelled Literacy instruction at Grade 2 and the increase of just over 100 students in each of Grades 2 and 3 cohorts (see Demographics section, p 28). Regina Public Schools continues to work towards all students achieving the provincially developed reading benchmark level for each grade.</p>	
<h3>Graduation Rates</h3> <p>Outcome: By June 30, 2020, Saskatchewan will achieve an 85% three-year graduation rate.</p>	
School Division goals aligned with the Graduation Rates outcome	<p>Regina Public Schools' priority goals are to achieve an "on-time" graduation rate of 80% by 2017 and achieve a 95% grade-to-grade transition rate by 2017.</p>
School division actions taken during the 2015-16 school year to achieve the targets and outcomes of the Graduation Rates outcome	<ul style="list-style-type: none"> • Participated in the provincial working group focused on improving data gathering, absence monitoring, and intervention. • Continued the development and expansion of a local interagency structure to facilitate the necessary relationships, resource sharing, and programming to support students demonstrating chronic absenteeism. RPS has partnered on the development of TRiP (The Regina intersectoral Partnership) focusing on a community solution to attendance and behavior concerns. • Developed an Attendance Intervention Protocol and Incentive Initiative to better identify and target students who were beginning to be absent habitually to those who are chronic non-attenders. Through a series of interventions and with the involvement of families, RPS provides consistent monitoring and support for students in addressing issues causing their absenteeism. As a complement to this focus,

	<p>RPS also provides an incentive to encourage regular attendance.</p> <ul style="list-style-type: none"> ● Expanded the number of Aboriginal Advocate positions to seven so that all but one high school now have this resource to engage and support families with school. ● Developed the High School Re-Engagement Centre (@HERE), designed for students under 16 who struggle with attendance. In this smaller environment, students are re-engaged to school by providing highly motivating, interest-based instruction differentiated to their academic abilities and needs. Students are then transitioned back to their home high school. ● Developed a High School Registration Centre to welcome all new high school students into Regina Public Schools to ensure their transition is successful. ● Offered Advanced Placement courses in all high schools to provide enrichment and improved engagement. The number of AP course offerings will continue to expand in every high school each year. ● Continued supporting the implementation of a “Triple Eight” strategy to encourage and support all students who are capable of attaining eight credits in each of the Grades 10, 11, and 12 years. All Regina Public high schools had a goal supporting the Division’s Triple Eight Strategy. ● Continued focus on credit recovery, high school advisory, attendance interventions and Aboriginal Advocates to work in unison to help schools achieve their Triple Eight goals. ● Implemented the “Family of Neighbourhood Schools” model as part of the 2014 High School Strategy to balance high school enrolments across the Division. ● Ensured, through analysis and consultation that all high school staff had expertise and training in the subjects they were teaching.

Measures for Graduation Rates

Grade 12 Graduation Rate: On-Time

To graduate within the typical three-year period after beginning Grade 10, students must accumulate an average of eight credits per year to achieve the minimum requirement of 24 required secondary level credits at the end of Grade 12. On-time graduation rates are one measure of the efficiency of a school system.

The following displays the percentage of students (all students, non-FNMI and FNMI) in the Division who graduated within **three years** of entering Grade 10, along with provincial results in each of these categories.

Notes: On-time graduation rates are calculated as the percentage of students who complete Grade 12 within 3 years of 'starting' Grade 10. Results for populations of fewer than 10 students have not been reported to avoid identifying individuals or very small groups of students (nr). FNMI students are those who choose to self-identify as First Nations (Registered/Treaty/Status Indian, Non-Status Indian), Métis, or Inuit/Inuk. Non-FNMI students are those who do not identify as FNMI or I, however this category may include FNMI students who choose not to self-identify.

Analysis of results

The School Division's on-time graduation rate for all students has shown some improvement but remains slightly below the provincial average. Since 2008-09, RPS has experienced an overall increase of 3% for all students, a 2 % increase for non-FNMI and a 19% increase in FNMI. In addition, over the course of this last year, there has been growth of 2% in all, 1% in non-FNMI, and 2% in FNMI. The trend line for on-time graduation results continues to increase, most significantly with FNMI students. This is especially noteworthy as RPS is a large division that is growing in population and diversity. (see Demographics section, p 28) RPS is proud that the FNMI on-time graduation rate is now slightly above the provincial average (42.3 % as compared to 41.8%). There continues to be a variance between on-time graduation rates for FNMI students and non-FNMI students in Regina Public Schools. Reducing this gap continues to be an important Division goal and an area of focus for further gains.

Grade 12 Graduation Rate: Extended-Time

Some students need more time to complete all the courses necessary to graduate so they continue in school longer than the typical three years after beginning Grade 10. Extended-time graduation rates are one measure of the responsiveness of the school system.

The following displays the percentage of students (all students, non-FNMI and FNMI) in the Division who graduated within **five years** of entering Grade 10, which includes those who graduated on-time, along with provincial results in each of these categories.

Notes: Extended-time graduation rates are calculated as the percentage of students who complete Grade 12 within 5 years of 'starting' Grade 10 (and include those who graduate on-time). Results for populations of fewer than 10 students have not been reported to avoid identifying individuals or very small groups of students (nr). FNMI students are those who choose to self-identify as First Nations (Registered/Treaty/Status Indian, Non-Status Indian), Métis, or Inuit/Inuk. Non-FNMI students are those who do not identify as FNMI or I, however this category may include FNMI students who choose not to self-identify.

Source: Ministry of Education, 2016

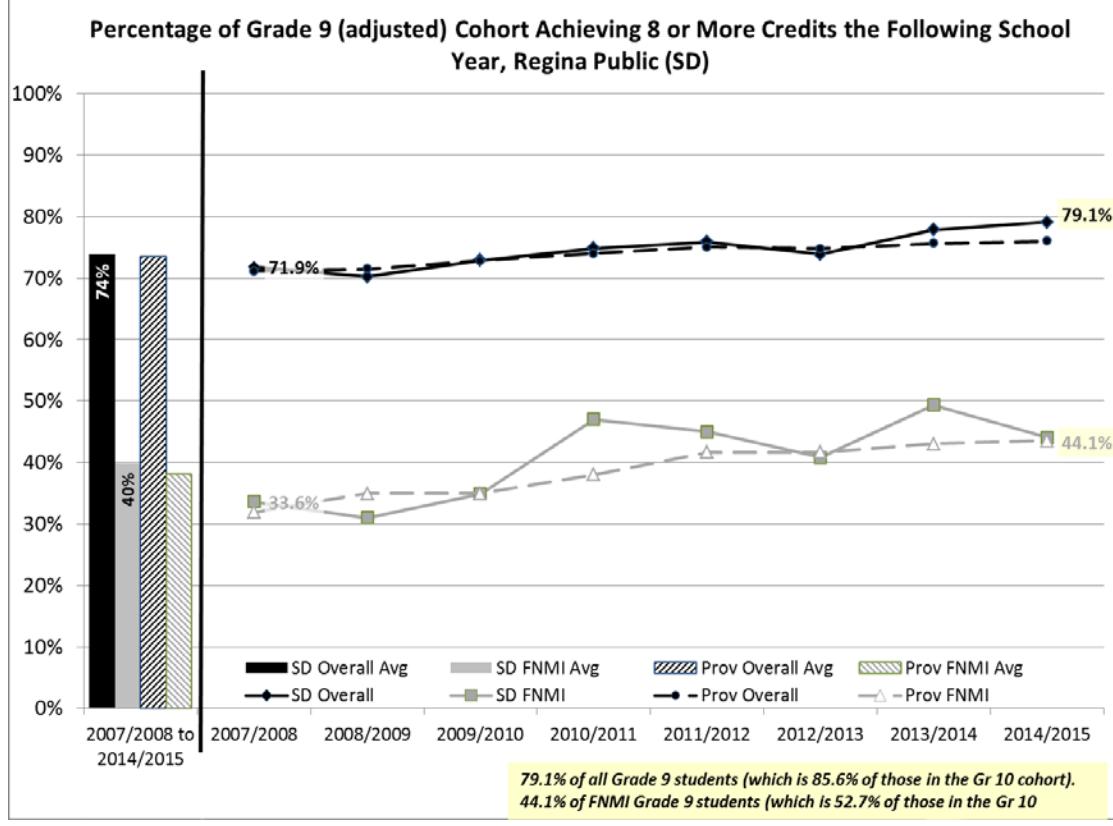

Analysis of results

The School Division's extended-time graduation rate for all students has shown some improvement, but remains slightly below the provincial average. Since 2008-09, RPS has not seen a significant overall increase, 1% for all students and a 2% increase for non-FNMI students. However, RPS has seen huge success for FNMI students over this time period with a 19% increase in FNMI graduation rates. Additionally, over the course of this last year, while achievement rates have been stable for all students and non-FNMI once again, there was a very significant 10% increase for FNMI students. The Division's trend line of results continues to increase, most notably with FNMI students. This is especially noteworthy as RPS is a large division that is growing in population and diversity. RPS is proud that the FNMI extended-time graduation rate is now slightly above the provincial average. There continues to be a variance between both the on-time and extended-time graduation rates for FNMI students and non-FNMI students in Regina Public Schools. Reducing this gap continues to be an important Division goal and an area of focus for further gains.

Grades 9 to 10 Transition

The transition from Grades 9 to 10 can be difficult for some students for many different reasons, including not having reached all outcomes from each subject area in the elementary grades. This measure is intended to show how well Grade 9 students adjust in the transition to Grade 10. Achieving eight or more credits a year is important for steady progress towards graduating on-time.

The following displays the percentage of Grade 9 students (all students and the FNMI subpopulation) in the Division who achieved eight or more credits the following school year, along with provincial results for the past eight years and the eight year average.

Notes: Percentages are calculated as the number of students attaining eight or more credits in the year immediately following their Grade 9 year divided by the number of students in the Grade 9 cohort. Results for populations of fewer than five have not been reported to avoid identifying individuals or very small groups of students. FNMI students are those who choose to self-identify as First Nations (Registered/Treaty/Status Indian, Non-Status Indian), Métis, or Inuit/Inuk. Non-FNMI students are those who do not identify as FNMI or I, however this category may include FNMI students who choose not to self-identify.

Source: Ministry of Education, 2016

Analysis of results

Regina Public Schools has seen a slight increase in credit attainment for these cohorts over time. Since 2006, all RPS students' credit attainment has increased by 10%, while FNMI students have seen a much more rapid increase of over 15% in eight years. In both sub groups, RPS has been at par or outperformed the rest of the province most notably with FNMI students. Overall transition rates continue to rise. Despite a slight decrease relative to last year's transition rates for FNMI students, the general upward trend is encouraging. This is significant success as RPS is a large division that is growing in population and diversity requiring substantial work to not only maintain rates but improve them as well. RPS believes credit attainment results are directly correlated with an increased focus on credit recovery and attendance in all RPS high schools.

Operational Spending

Outcome:

By August 31, 2020, implement a sector-wide approach to find efficiencies and increase value add in order for the sector to be responsive to the challenges of student needs.

School division goals aligned with the Operational Spending outcome	<ul style="list-style-type: none">• Identify opportunities to collaborate with Regina Catholic Schools to achieve efficiencies and benefit students.• Implement strategies to enhance and balance facilities utilization.• Update Human Resources processes and procedures.• Review existing operations to identify opportunities for efficiencies and redirecting resources.
School division actions taken during the 2015-16 school year to achieve the targets and outcomes of the Operational Spending outcome	<ul style="list-style-type: none">• Completed feasibility study analyzing the potential for establishing a transportation consortium in partnership with Regina Catholic Schools.• Introduced a new Human Resources/Payroll system, Atrieve, with the goal of updating and streamlining existing processes in the area and providing enhanced information for staffing purposes.• Implemented revisions to the retirement gratuity policy which resulted in a one-time decrease to the Division's long-term obligations for this plan of \$2.4M.• Participated in negotiations regarding revisions to the Civic Pension Plan covering non-teaching staff members with a view to enhancing the sustainability of the plan while maintaining affordable contribution rates.• Implemented High School Strategy/Family of Neighbourhood Schools in order to optimize utilization of high school facilities in the Division.• Completed LEAN event focused on streamlining the interface between Facilities and Accounting Departments in processing of payables. Upon full implementation, the cycle time for payments will be reduced from 27 days to 15 days, processing steps will be reduced from 11 to 9, and the number of transfers between staff will be reduced from 12 to 5.• Implemented System Center Configuration Manager (SCCM) automated software updates to minimize requirement to manually update computer software thus freeing up technology-related resources.

Early Years

Outcome:

By June 30, 2020, children aged 0-6 years will be supported in their development to ensure that 90% of students exiting Kindergarten are ready for learning in the primary grades.

School division goals aligned with the Early Years outcome	Regina Public Schools' priority strategy for the early years is to increase the number of Kindergarten students who enter Grade 1 ready to learn. This includes defining school readiness, professional development focusing on language and social development, identifying and removing barriers for attending Prekindergarten and Kindergarten programs, identifying common expectations and practices suitable for early learners, and continued use of family-based and interagency approaches to address vulnerability.
School division actions taken during the 2015-16 school year to achieve the targets and outcomes of the Early Years outcome	<ul style="list-style-type: none">• Professional Learning sessions for Prekindergarten that included training and support for teachers new to the role, reading readiness, newly implemented Progress Reports and SeeSaw electronic learning journal and Communities of Practice.• Professional Learning sessions for Kindergarten that included training and support for teachers new to the role, reading readiness, Hannon and Communities of Practice.• Continued use of Early Years Evaluation in Kindergarten to identify vulnerable students and provide ongoing supports.• Implementation of Help Me Tell My Story in all Prekindergarten classrooms.• Implementation of SeeSaw (an electronic learning journal) in Prekindergarten to engage parents with the day to day learning of their PreK child.• Working group created to develop an early learning common understanding of reading and reading readiness.• Selection and implementation of ongoing assessment practices and processes incorporated into teaching and learning practices.

Measures for Early Years

Early Years Evaluation

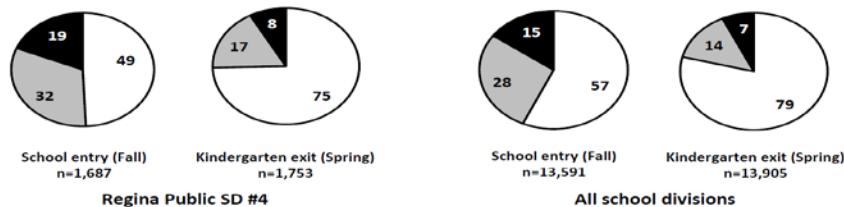

Regina Public Schools administered the Early Years Evaluation to students in 2015-16. A report is provided to each Kindergarten parent/caregiver in a face-to-face meeting in November.

The Early Years Evaluation-Teacher Assessment (EYE-TA) is a readiness screening tool that provides information about each child's development and learning with a focus on reading readiness skills. Results from the EYE-TA allow educators and school-based interdisciplinary teams to quickly identify children most likely to require extra support during the Kindergarten year, based on their levels of skill development in five key domains at school entry. In addition to results for specific domains, children are also assigned a comprehensive score known as a Responsive Tiered Instruction (RTI) level. Responsive Tiered Instruction (RTI) is a preventive approach that allows educators, school teams and divisions to allocate resources early and continuously, rather than waiting until after children have experienced failure before responding.

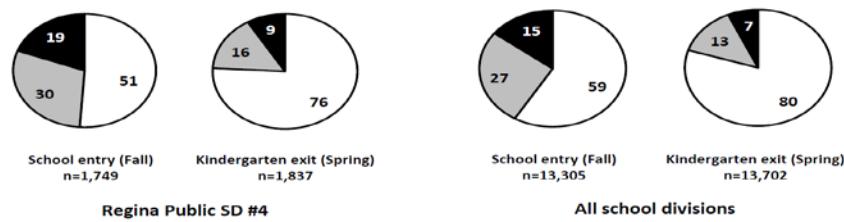

The following displays the percentage of students by RTI tiers at the end of Kindergarten in 2015-16, as well as the provincial results for each category.

**Ready to Learn: Early Years Evaluation – Teacher Assessment (EYE-TA) RTI
(responsive, tiered instruction) results (%) at school entry & Kindergarten exit,
2014-15 (baseline) & 2015-16**

2014-15 (baseline) collection; % of n values for School entry & Kindergarten exit categories

2015-16 collection; % of n values for School entry & Kindergarten exit categories

Tier I – Children are achieving developmental tasks

Tier II – Children are experiencing some difficulty achieving developmental tasks

Tier III – Children are experiencing significant difficulty achieving developmental tasks

Totals may not add to 100 due to rounding

Notes:

Research shows early identification followed by a responsive, tiered approach to instruction from Kindergarten to Grade 3 can substantially reduce the prevalence of reading problems. Children who have Tier 2 or Tier 3 needs at Kindergarten entry are re-assessed before Kindergarten exit, allowing school divisions to measure the impact of their supports and responses. Spring RTI data also serves as a leading indicator of the population of students who may need Tier 2 or Tier 3 instructional supports as they transition from Kindergarten to Grade 1.

Results reported previously for Division EYE RTI Tiers at Kindergarten exit in 2014-15 may vary from results reported here. This is due to a change in reporting methodology. Prior to 2015-16, EYE results at Kindergarten exit omitted results for children who were assessed in spring post-screens only. The amended reporting methodology now includes results for all children screened in a division, regardless of whether or not they were enrolled and present during fall pre-screens.

Source: Ministry of Education, Early Years Branch, 2016

Analysis of results

Regina Public Schools had 76% of students leave Kindergarten ready to learn in Grade 1 in 2016. A further 16% are identified as benefiting from additional classroom support and 9% experienced significant difficulty. Year-over-year comparative results show an increase of 1% of students ready to learn in Grade 1 which mirrors the increase at the provincial level, but still remains 4% lower than the provincial average. Regina Public Schools continues to work to increase the number of Kindergarten students identified as “ready to learn” and to provide supports for children whose first language is not English.

Demographics

Students

As one of the largest urban school divisions, Regina Public Schools (RPS) serves more than 22,000 students and operates 41 elementary and eight high schools. Six elementary schools and two high schools offer French Immersion programs to 2,310 students.

The Division operates 41 Prekindergarten programs providing early learning experiences to over 700 three- and four-year-olds in 25 school communities. In addition, 10 RPS Discovery Pre-Schools provide early learning experiences for students requiring intensive supports.

Thirteen elementary community schools and three community high schools have access to additional resources, including support personnel. Community schools work closely with their communities to build from strengths and develop student achievements and engagement.

In recent years, Regina has seen a remarkable increase in the number of new Canadians whose first language is not English. At the beginning of the 2015-16 school year, Regina Public Schools provided support to 2,501 EAL students. In January, 2016, the number of EAL students increased as a result of the Syrian refugee resettlement.

Over 400 young adults re-engaging in the learning process benefit from specialized programs provided through the Adult and Victoria Campuses, Regina Trades and Skills Centre and through Night School.

The Division is also affiliated with three associate schools offering religious-based programming.

Staff

Regina Public Schools employs approximately 2,231 full-time equivalent employees in a variety of school-based and Division-level positions. While the majority of employees are teachers or professional educators in supervisory positions, the Division also employs ancillary professionals, such as occupational therapists, speech-language pathologists, and psychologists. Additionally, support personnel, including special education assistants, administrative assistants, trades people, facility technicians, teacher associates, resource centre assistants and technicians, and nutrition coordinators, are just a few of the types of positions held by RPS employees. At the School Division administrative level, RPS also employs a number of administrator, business, and information technology professionals.

In addition to the local teachers' association, the Regina Public School Teachers' Association, employees are represented by three separate CUPE locals (650, 3766 and 4643), an SGEU local and a SUN local. The Division administers an Employment Equity Plan in its effort to ensure a representative workforce.

Senior Management Team

The Director of Education, Greg Enion, reports directly to the Board of Trustees. Reporting to the Director are three Deputy Directors; the Supervisor of Policy, Planning and Research (Mark Whiting); and the Supervisor of Communications (Terry Lazarou).

The Deputy Director of Division Services, Debra Burnett, has responsibility for business affairs, educational facilities, accounting, human resources and payroll, information technology services, stores and distribution, and transportation. Three superintendents report directly to this position.

The Deputy Director of School Services, Mike Walter, has one superintendent as a direct report and oversees school operations, which includes major teacher staffing responsibilities.

The Deputy Director of Student Achievement, Darren Boldt, is responsible for all aspects of student achievement. Four superintendents report directly to this Deputy Director. Each of those four superintendents oversees a team of ancillary professionals and school principals and has responsibility for a group of specified schools.

Facilities Transportation and Infrastructure

RPS Capital Development Projects

Regina Public Schools (RPS)

takes pride in its

educational facilities.

Physical surroundings have a significant impact on student achievement and on the provision of equitable opportunities for learning and the delivery of effective programs.

RPS operates 41 elementary schools, eight high schools, Campus Regina Public (including Victoria Campus) and the Adult Campus, in addition to the Division Office.

The face of Regina is changing and growing. RPS continues to change with the city it serves. RPS is focused on instruction and successful outcomes for all students. The Division is planning for the future, both with how students are

taught as well as the facilities they attend. That is why RPS has an ongoing plan to renovate or rebuild school buildings so that they can complement the professional and caring teaching that goes on inside.

Preventative maintenance and school renewal funding provided for a number of repairs and enhancements to existing facilities. Some of these are identified in this document under the heading: Infrastructure Projects.

RPS continues to work with the Ministry and Regina Catholic Schools on the construction of three new joint schools in Regina's newest neighbourhoods and ongoing work to replace the École Connaught Community School building. The Division continues to consult with school communities and participate in the design and construction of these schools. These four schools are scheduled to be open in the fall of 2017.

As well, during the 2015-16 school year construction continued on the Mâmawêyatîn Centre in preparation for a fall 2017 completion and opening.

Student Transportation

Regina Public Schools is an urban school division offering education to public ratepayers residing within the borders of the City of Regina. Transportation services are provided to elementary school students in Grades 2 to 8 who reside more than 1.2 kilometres from their designated school and to Kindergarten and Grade 1 students who reside more than 600 metres from their designated school. In addition, transportation services are provided to special needs students. Transportation services are also available for curricular and extracurricular activities and trips.

Regina Public Schools owns its school buses; however, it contracts out the operation and maintenance of the school buses. In addition, taxi cabs and other light vehicle providers are contracted to provide transportation services.

2	The number of students paying tuition fees was lower than expected.
3	Student fee collections, grants, donations and partnership revenues were higher than expected.
4	Special program revenues were higher than expected.
5	Interest revenue was less than budget estimate due to lower interest rates.
6	The number of students for whom tuition was paid was lower than projected.
7	Student revenue collections were higher than budgeted.
8	Due to receipt of increased special programming grants, expenditures were higher than budgeted.
9	Expenditures related to bank services were higher than anticipated.

Appendix B: Management Report and Audited Financial Statements

REGINA SCHOOL DIVISION NO. 4 OF SASKATCHEWAN

August 31, 2016

Management's Responsibility for the Consolidated Financial Statements

The school division's management is responsible for the preparation of the consolidated financial statements in accordance with Canadian public sector accounting standards and the format specified in the Financial Reporting Manual issued by the Ministry of Education. The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods.

The school division's management maintains a system of accounting and administrative controls to ensure that accurate and reliable consolidated financial statements are prepared and to provide reasonable assurance that transactions are authorized, assets are safeguarded, and financial records are properly maintained to provide reliable information for the preparation of consolidated financial statements.

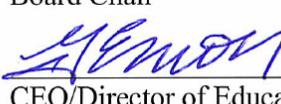

The Board of Education is composed of elected officials who are not employees of the school division. The Board is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control, and for approving the consolidated financial statements. The Board is also responsible for the appointment of the school division's external auditors.

The external auditors, MNP LLP, conduct an independent examination in accordance with Canadian auditing standards and express their opinion on the consolidated financial statements. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the school division's consolidated financial statements. The external auditors have full and free access to, and meet periodically and separately with, both the Board and management to discuss their audit findings.

On behalf of the Regina School Division No. 4:

Board Chair

CEO/Director of Education

Chief Financial Officer

Independent Auditors' Report

To the Board of Regina School Division No. 4 of Saskatchewan:

We have audited the accompanying consolidated financial statements of Regina School Division No.4, which comprise the consolidated statement of financial position as at August 31, 2016 and the consolidated statements of operations and accumulated surplus from operations, changes in net financial assets and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Canadian public sector accounting standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audit is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of Regina School Division No.4 as at August 31, 2016 and the results of its operations, consolidated changes in net financial assets and its consolidated cash flows for the year then ended in accordance with Canadian public sector accounting standards.

**REGINA SCHOOL DIVISION NO. 4 OF SASKATCHEWAN
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at August 31, 2016**

1. AUTHORITY AND PURPOSE

The school division operates under the authority of *The Education Act, 1995* of Saskatchewan as a corporation under the name of “The Board of Education of the Regina School Division No. 4 of Saskatchewan” and operates as “the Regina School Division No. 4”. The school division provides education services to residents within its geographic region and is governed by an elected board of trustees.

The school division is funded mainly by grants from the Government of Saskatchewan and a levy on the property assessment included in the school division’s boundaries at mill rates determined by the provincial government. The school division is exempt from income tax and is a registered charity under the *Income Tax Act*.

2. SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements have been prepared in accordance with Canadian public sector accounting standards for other government organizations as established by the Canadian Public Sector Accounting Board (PSAB) and as published by the Chartered Professional Accountants of Canada (CPA Canada).

Significant aspects of the accounting policies adopted by the school division are as follows:

a) Basis of Accounting

The consolidated financial statements are prepared using the accrual basis of accounting.

b) Reporting Entity and Consolidation

The consolidated financial statements include all of the assets, liabilities, revenues and expenses of the school division reporting entity. The school division reporting entity includes the school division’s share of partnerships.

The school division’s share of all of the assets, liabilities, revenues and expenses of partnerships are consolidated line-by-line after adjusting the accounting policies to a basis consistent with the accounting policies of the school division. Inter-organizational transactions and balances have been eliminated.

Partnerships

A partnership represents a contractual arrangement between the school division and a party or parties outside the school division reporting entity. The partners have significant, clearly defined common goals, make a financial investment in the partnership, share control of decision making, and share, on an equitable basis, the significant risks and benefits associated with the operations of the partnership.

**REGINA SCHOOL DIVISION NO. 4 OF SASKATCHEWAN
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at August 31, 2016**

Partnerships are accounted for on a proportionate, consolidation basis whereby the school division's pro-rata share of the partnership's assets, liabilities, revenues and expenses are combined on a line by line basis after adjusting the accounting policies to a basis consistent with the accounting policies of the school division. Inter-company balances and transactions between the school division and the partnership have been eliminated.

These consolidated financial statements contain the following partnership:

- Mâmawêyatitân Centre (consolidated 72.85%) (2015 – consolidated 72.85%)

c) Measurement Uncertainty and the Use of Estimates

Canadian public sector accounting standards require management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the year. Measurement uncertainty that may be material to these consolidated financial statements exists for:

- the liability for employee future benefits of \$10,858,200 (2015 - \$11,320,000) because actual experience may differ significantly from actuarial estimations.
- property taxation revenue of \$86,399,460 (2015 - \$84,237,422) because final tax assessments may differ from initial estimates.
- accrued liabilities for contaminated sites of \$30,000 (2015 – \$75,000) because the actual remediation expense may differ from the valuation estimates.
- useful lives of capital assets and related amortization of \$8,352,213 (2015 - \$7,501,609) because the actual useful lives of the capital assets may differ from their estimated economic lives.

These estimates and assumptions are reviewed periodically and, as adjustments become necessary, they are reported in earnings in the periods in which they become known.

While best estimates are used for reporting items subject to measurement uncertainty, it is reasonably possible that changes in future conditions, occurring within one fiscal year, could require material changes in the amounts recognized or disclosed.

d) Financial Instruments

Financial instruments are any contracts that give rise to financial assets of one entity and financial liabilities or equity instruments of another entity. A contract establishing a financial instrument creates, at its inception, rights and obligations to receive or deliver economic benefits. The school division recognizes a financial instrument when it becomes a party to the contractual provisions of a financial instrument. The financial assets and financial liabilities portray these rights and obligations in the consolidated financial statements. Financial instruments of the

**REGINA SCHOOL DIVISION NO. 4 OF SASKATCHEWAN
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at August 31, 2016**

school division include cash and cash equivalents, accounts receivable, portfolio investments, accounts payable and accrued liabilities and long-term debt.

All of the school division's financial instruments are measured at cost or amortized cost. Transaction costs are a component of the cost of financial instruments measured using cost or amortized cost. For financial instruments measured using amortized cost, the effective interest rate method is used to determine interest revenues or expenses. Impairment losses such as write-downs or write-offs are reported in the consolidated statement of operations and accumulated surplus from operations.

Gains and losses on financial instruments, measured at cost or amortized cost, are recognized in the consolidated statement of operations and accumulated surplus from operations in the period the gain or loss occurs.

Foreign currency transactions are translated at the exchange rate prevailing at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars at the exchange rate prevailing at the consolidated financial statement date. The school division is not subject to significant unrealized foreign exchange translation gains and losses arising from its financial instruments.

e) Financial Assets

Financial assets are assets that could be used to discharge existing liabilities or finance future operations and are not for consumption in the normal course of operations. Valuation allowances are used where considered necessary to reduce the amounts reported for financial assets to their net realizable value.

Cash and Cash Equivalents consist of cash, bank deposits and highly liquid investments with initial maturity terms of three months or less and held for the purpose of meeting short-term operating cash commitments rather than for investing purposes.

Accounts Receivable includes provincial grants receivable and other receivables. Provincial grants receivable represent operating, capital, and other grants earned but not received at the end of the fiscal year, provided reasonable estimates of the amounts can be made. Grants are earned when the events giving rise to the grant have occurred, the grant is authorized and any eligibility criteria have been met.

Other receivables are recorded at cost less valuation allowances. These allowances are recorded where collectability is considered doubtful.

Inventories for Sale consist of land and buildings which are held for sale in the ordinary course of operations and are valued at the lower of cost and net realizable value. Cost is determined by netting the cost of the asset against the accumulated depreciation of the asset at the time the asset was no longer used in normal operations of the school division. Net realizable value is the estimated selling price in the ordinary course of business.

**REGINA SCHOOL DIVISION NO. 4 OF SASKATCHEWAN
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at August 31, 2016**

Portfolio Investments consist of GICs. The school division values its portfolio investments in accordance with its policy for financial instruments, as described in Note 2 (d).

f) Non-Financial Assets

Non-financial assets are assets held for consumption in the provision of services. These assets do not normally provide resources to discharge the liabilities of the school division unless they are sold.

Tangible Capital Assets have useful lives extending beyond the accounting period, are used by the school division to provide services to the public and are not intended for sale in the ordinary course of operations. Tangible capital assets of the school division include land and land improvements, buildings, buildings – short term, school buses, other vehicles, furniture and equipment, computer hardware and audio visual equipment, computer software, capital lease assets and assets under construction.

Tangible capital assets are recorded at cost (or estimated cost when the actual cost is unknown) and include all costs directly attributable to the acquisition, design, construction, development, installation and betterment of the tangible capital asset. The school division does not capitalize interest incurred while a tangible capital asset is under construction.

Tangible capital asset costs that are directly paid for by the Government of Saskatchewan on behalf of the school division, under the joint-use schools project (JUSP) agreement, are valued at the total progress payments made during construction and the present value of the future capital payments discounted to the date the asset is available for use using the Government of Saskatchewan's borrowing rate for long-term debt in effect at the time of signing the JUSP agreement. During construction, the costs of the assets are recognized using the percentage of completion method based on construction progress and are classified as assets under construction.

The cost of depreciable tangible capital assets, net of any residual value, is amortized on a straight line basis over their estimated useful lives as follows:

Land improvements (pavement, fencing, lighting, etc.)	20 years
Buildings	50 years
Buildings – short-term (portables, storage sheds, outbuildings, garages)	20 years
School buses	12 years
Other vehicles – passenger	5 years
Other vehicles – heavy (graders, 1 ton truck, etc.)	10 years
Furniture and equipment	10 years
Computer hardware and audio visual equipment	5 years
Computer software	5 years
Leased capital assets	Lease term

**REGINA SCHOOL DIVISION NO. 4 OF SASKATCHEWAN
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at August 31, 2016**

Assets under construction are not amortized until completed and placed into service for use.

Assets that have a historical or cultural significance, such as works of art, monuments and other cultural artifacts, are not recognized as tangible capital assets because a reasonable estimate of future benefits associated with these properties cannot be made.

Inventory of Supplies for Consumption consists of supplies held for consumption by the school division in the course of normal operations and are recorded at the lower of cost and replacement cost.

Prepaid Expenses are prepaid amounts for goods or services which will provide economic benefits in one or more future periods. Prepaid expenses include Saskatchewan School Board Association membership fees, lease costs, software user fees, Workers' Compensation premiums, League of Educational Administrators, Directors and Superintendents of Saskatchewan (LEADS) membership dues and insurance premiums.

g) Liabilities

Liabilities are present obligations arising from transactions and events occurring prior to year-end, which will be satisfied in the future through the use of assets or another form of economic settlement.

Accounts Payable and Accrued Liabilities include accounts payable and accrued liabilities owing to third parties and employees for work performed, goods supplied and services rendered, but not yet paid at the end of the fiscal period, and the estimated liability for contaminated sites.

Liability for Contaminated Sites arises when contamination is being introduced into air, soil, water or sediment of a chemical, organic or radioactive material or live organism that exceeds the maximum acceptable concentrations under an environmental standard. A liability for remediation of contaminated sites is recognized when all of the following criteria are met:

- an environmental standard exists;
- contamination exceeds the environmental standard;
- the school division:
 - is directly responsible; or
 - accepts responsibility
- the school division expects that future economic benefits will be given up; and
- a reasonable estimate of the amount can be made.

Liabilities are accrued to record the estimated costs related to the management and remediation of contaminated sites where the school division is obligated or likely to be obligated to incur such costs. The liability estimate includes costs that are directly

**REGINA SCHOOL DIVISION NO. 4 OF SASKATCHEWAN
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at August 31, 2016**

attributable to the remediation activities and reflects the costs required to bring the site up to the current environmental standard for its use prior to contamination. The liability is recorded net of any expected recoveries.

A detail of the accrued Liability for Contaminated Sites is included in Note 9 – Accounts Payable and Accrued Liabilities of the consolidated financial statements.

Long-Term Debt is comprised of capital loans with initial maturities of more than one year and are incurred for the purpose of financing capital expenses in accordance with the provisions of *The Education Act, 1995*.

Long-term debt also includes capital lease obligations where substantially all of the benefits and risks incident to ownership are transferred to the school division without necessarily transferring legal ownership. The amount of the lease liability recorded at the beginning of the lease term is the present value of the minimum lease payments, excluding the portion thereof relating to executory costs.

Liability for Employee Future Benefits represents post-employment and compensated absence benefits that accrue to the school division's employees. The cost of these benefits is recorded as the benefits are earned by employees. The liability relating to these benefits is actuarially determined using the projected benefit method pro-rated on service. Actuarial valuations are performed periodically using assumptions including discount rate, inflation, salary escalation, termination and retirement rates and mortality. An actuary extrapolates these valuations when a valuation is not done in the current fiscal year. Actuarial gains and losses are amortized on a straight line basis over the expected average remaining service life of the related employee groups.

In 2016, the school division amended its retirement gratuity plan which resulted in a one-time decrease to the school division's long-term obligation for this plan of \$2,414,000. Details of the impact of this plan amendment are provided in Note 6 Employee Future Benefits.

Deferred Revenue represents tax levy payments received in advance of the period to which the levies are attributable, fees or payments for services received in advance of the fee being earned or the services being performed, restricted proceeds from the sale of school buildings, the capital portion of tuition fees received from the federal government, and other contributions for which the contributor has placed restrictions on the use of the resources.

Tax levies are recognized in the period to which the revenue pertains, revenue from tuition and other contractual services is recognized as the services are delivered, proceeds from the sale of school buildings and federal capital tuition fees are recognized when used towards the acquisition of a qualifying tangible capital asset, and revenue from other contributions is recognized in the fiscal year in which the resources are used for the purpose specified by the contributor.

**REGINA SCHOOL DIVISION NO. 4 OF SASKATCHEWAN
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at August 31, 2016**

h) Employee Pension Plans

Employees of the school division participate in the following pension plans:

Multi-Employer Defined Benefit Plans

The school division's employees participate in one of the following multi-employer defined benefit plans:

- i) Teachers participate in the Saskatchewan Teachers' Retirement Plan (STRP) or the Saskatchewan Teachers' Superannuation Plan (STSP). The school division's obligation for these plans is limited to collecting and remitting contributions of the employees at rates determined by the plans.
- ii) Other employees participate in the Regina Civic Employees' Superannuation and Benefit Plan. In accordance with the Public Sector Accounting Board (PSAB) standards for multi-employer plans, the plan is accounted for as a defined contribution plan whereby the school division's contributions are expensed when due.

i) Revenue Recognition

Revenues are recorded on the accrual basis. Revenues are recognized in the period in which the transactions or events occurred that gave rise to the revenues, provided the amount to be received can be reasonably estimated and collection is reasonably assured.

The school division's sources of revenues include the following:

i) Government Transfers (Grants)

Grants from governments are considered to be government transfers. In accordance with PS3410 standard, government transfers are recognized as revenues when the transfer is authorized, all eligibility criteria have been met, the amount can be estimated and collection is reasonably assured except when, and to the extent, stipulations by the transferor give rise to an obligation that meets the definition of a liability. For transfers with stipulations, revenue is recognized in the consolidated statement of operations and accumulated surplus from operations as the stipulation liabilities are settled.

ii) Property Taxation

Property tax is levied and collected on a calendar year basis. Uniform education property tax mill rates are set by the Government of Saskatchewan. Tax revenues are recognized on the basis of time with 1/12th of estimated total tax revenue recorded in each month of the school division's fiscal year. The tax revenue for the September to December portion of the fiscal year is based on the actual amounts reported by the City of Regina for the calendar taxation year. For the January to August portion of its fiscal year, the school division estimates tax revenue based on

**REGINA SCHOOL DIVISION NO. 4 OF SASKATCHEWAN
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at August 31, 2016**

estimate information provided by the City of Regina who levies and collects the property tax on behalf of the school division. The final annual taxation amounts are reported to the school division by the City of Regina following the conclusion of each calendar taxation year, and any difference between final amounts and the school division's estimates is recorded as an adjustment to revenue in the next fiscal year.

iii) Fees and Services

Revenues from tuition fees and other fees and services are recognized in the year they are earned. Amounts that are restricted pursuant to legislation, regulation or agreements with external parties that may only be used in the conduct of certain programs or in the delivery of specific services and transactions are initially recorded as deferred revenue and subsequently recognized as revenue in the fiscal year the related expenses are incurred or services are performed.

iv) Interest Income

Interest is recognized on an accrual basis when it is earned.

v) Other (Non-Government Transfer) Contributions

Unrestricted contributions are recognized as revenue in the year received or in the year the funds are committed to the school division if the amount can be reasonably estimated and collection is reasonably assured. Externally restricted contributions are contributions for which the contributor has placed restrictions on the use of the resources. Externally restricted contributions that are to be held in perpetuity are recognized as revenue in the year in which they are received or committed if the amount can be reasonably estimated and collection is reasonably assured. Externally restricted contributions that are not held in perpetuity are deferred until the resources are used for the purpose specified, at which time the contributions are recognized as revenue. In-kind contributions are recorded at their fair value when they are received.

j) Consolidated Statement of Remeasurement Gains and Losses

The school division has not presented a consolidated statement of remeasurement gains and losses because it does not have financial instruments that give rise to material remeasurement gains or losses.

3. OPERATING LINE OF CREDIT

The school division has a demand operating line of credit with the Bank of Nova Scotia with a maximum borrowing limit of \$20 million that bears interest at Bank prime rate less 1.00% per annum. This line of credit is authorized by a borrowing resolution by the board of education and is secured by tax levies. This line of credit was approved by the Minister of Education on January 21, 2013. The balance drawn on the line of credit at August 31, 2016 was \$Nil (August 31, 2015 - \$Nil).

6. EMPLOYEE FUTURE BENEFITS

The school division provides certain post-employment, compensated absence and termination benefits to its employees. These benefits include retirement gratuities, severance benefits and non-vested sick leave benefits, for certain employees pursuant to applicable contracts and union agreements. The liability associated with these benefits is calculated as the present value of expected future payments pro-rated for service and is recorded as Liability for Employee Future Benefits in the consolidated statement of financial position. Morneau Shepell Ltd., a firm of consulting actuaries, performed an actuarial valuation as at March 31, 2015 and extrapolated the results to estimate the Liability for Employee Future Benefits as at August 31, 2016.

In 2016, the school division amended its retirement gratuity plan. In prior years, certain employee groups with at least 10 years of full-time equivalent service were eligible for a retirement gratuity based on annual salary and years of service. In 2016, the retirement gratuity plan was amended such that employees with less than 10 years of full-time equivalent service at July 1, 2016 are no longer eligible for the retirement gratuity. For employees with at least 10 years of full-time equivalent service at July 1, 2016, the benefit at retirement is based on the employee's salary and years of service on June 30, 2016. This change resulted in a one-time decrease to the school division's long-term obligation for this plan of \$2,414,000.

7. PENSION PLANS

Multi-Employer Defined Benefit Plans

Information on the multi-employer pension plans to which the school division contributes is as follows:

i) Saskatchewan Teachers' Retirement Plan (STRP) or Saskatchewan Teachers' Superannuation Plan (STSP)

The STRP and STSP provide retirement benefits based on length of service and pensionable earnings.

The STRP and STSP are funded by contributions by the participating employee members and the Government of Saskatchewan. The school division's obligation to the STRP and STSP is limited to collecting and remitting contributions of the employees at rates determined by the plans. Accordingly, these consolidated financial statements do not include any expense for employer contributions to these plans. Net pension assets or liabilities for these plans are not reflected in these consolidated financial statements as ultimate responsibility for retirement benefits

**REGINA SCHOOL DIVISION NO. 4 OF SASKATCHEWAN
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at August 31, 2016**

rests with the Saskatchewan Teachers' Federation for the STRP and with the Government of Saskatchewan for the STSP.

Details of the contributions to these plans for the school division's employees are as follows:

	2016			2015	
	STRP	STSP	TOTAL	TOTAL	
Number of active School Division members	1,726	30	1,756		1,765

ii) Regina Civic Employees' Superannuation and Benefit Plan

The Regina Civic Employees' Superannuation and Benefit Plan is a multi-employer defined benefit plan that provides retirement benefits based on length of service and pensionable earnings.

An actuarial valuation of the Regina Civic Employees' Superannuation and Benefit Plan completed as at December 31, 2014 identified an unfunded liability of \$213.341 million. Plan changes were implemented January 1, 2016 to meet minimum statutory funding requirements. In accordance with these amendments, the unfunded liability determined by the December 31, 2014 valuation will be amortized over a period of no more than 20 years, and the cost sharing arrangement was amended to provide that 60% of the unfunded liability for service prior to January 1, 2016 is to be funded by participating employer contributions and 40% from employee contributions.

The contributions to the Regina Civic Employees' Superannuation and Benefit Plan by the participating employers are not segregated in separate accounts or restricted to provide benefits to the employees of a particular employer. As a result, the school division is not able to separately identify its share of the underlying assets and liabilities of the plan, and in accordance with the Public Sector Accounting Board (PSAB) standards for multi-employer plans, the school division has not recognized any portion of the assets, liabilities or deficit for this plan in these consolidated financial statements. The school division's contributions are expensed when due, and the pension benefit expense reflected in the consolidated financial statements is equal to the school division's contributions for the year.

Details of the plan and contributions for the school division's employees are as follows:

- (1) City of Regina Capital Receivable: In 1987, the Central Collegiate land and building were transferred to The City of Regina for 5.017 hectares of future lands having an estimated value of \$1,775,000. The amount is set up as capital receivable to be applied against future property acquisitions from The City of Regina. In 1999, an agreement was finalized with The City of Regina relating to the provision of municipal reserve lands on which an elementary school would be constructed in southeast Regina. As part of the transaction, the school division received credit for the equivalent of one hectare under the Central Collegiate Land Exchange Agreement. Accordingly, to date an amount of \$347,562 has been applied to the capital receivable resulting in a balance of \$1,427,438.

The purpose and nature of each Complementary Services program is as follows:

The Prekindergarten program was approved by the Ministry of Education based on community socio-economic factors prescribed by the Ministry. The Community Schools program, which is no longer recognized by the Ministry of Education, still follows many of the same guidelines the Ministry once provided for the program. Nutrition programs provide for nutritionists and nutritional meals and snacks for students in need. Other programs include Ministry-approved projects such as Youth in Custody, First Nations Métis Education, Under 11 Initiatives and the University of Regina transitions project.

14. ACCUMULATED SURPLUS

Accumulated surplus represents the financial assets and non-financial assets of the school division less liabilities. This represents the accumulated balance of net surplus arising from the operations of the school division including school generated funds.

Certain amounts of the accumulated surplus, as approved by the board of education, have been designated for specific future purposes such as school funds, capital reserves and for instructional and facilities innovation and upgrades. These internally restricted amounts are included in the accumulated surplus presented in the consolidated statement of financial position. The school division does not maintain separate bank accounts for the internally restricted amounts.

- The General reserve is for future operating costs.
- The Renewal reserve was established in 2009 and supplemented in 2010 and 2011 with facility savings associated with school attendance area mergers. The reserve is for capital costs associated with renewal of the school division's capital assets.
- The School Fund reserve includes the budget carry-overs for all school-generated funds.
- The Encumbrance reserve represents all outstanding purchase orders at August 31.
- The Facility Upgrade reserve represents all outstanding planned facilities projects that were budgeted in prior years but not completed at year-end.
- The IT Upgrades reserve includes allocations for future VoIP requirements and proposed business continuity needs.
- The Instructional Innovation reserve includes allocations for instructional supplies and contracted services for instructional programming, as well as reserves for deferred Ministry programs.
- Other reserves include allocations for capital equipment and software.

15. BUDGET FIGURES

Budget figures included in the consolidated financial statements were approved by the board of education on June 16, 2015 and the Minister of Education on August 20, 2015.

16. RELATED PARTIES

These consolidated financial statements include transactions with related parties. The school division is related to all Government of Saskatchewan ministries, agencies, boards, school divisions, health authorities, colleges, and crown corporations under the common control of the Government of Saskatchewan. The school division is also related to non-crown enterprises that the Government jointly controls or significantly influences. In addition, the school division is related to other non-government organizations by virtue of its economic interest in these organizations.

Related Party Transactions

Transactions with these related parties are in the normal course of operations. Amounts due to or from and the recorded amounts of transactions resulting from these transactions are included in the consolidated financial statements and the table below. They are recorded at exchange amounts which approximate prevailing market rates charged by those organizations and are settled on normal trade terms.

17. CONTINGENT LIABILITIES

Litigation

The school division has been named as a defendant in certain legal actions in which damages have been sought. The outcome of these actions is not determinable as at the date of reporting and accordingly, no provision has been made in these consolidated financial statements for any liability that may result. The school division's share of settlement, if any, will be charged to expenses in the year in which the amount is determinable.

18. CONTRACTUAL OBLIGATIONS AND COMMITMENTS

Significant contractual obligations and commitments of the school division are as follows:

- construction contract for the Scott Collegiate rebuild as part of the Mâmawêyatitân Centre in the amount of \$7.96 million to be paid over the next year.
- construction contract for the École Connaught Community School rebuild in the amount of \$8.18 million to be paid over the next year.
- construction contracts for relocatable classrooms in the amount of \$298,000 to be paid over the next year.
- operating and capital lease obligations of the school division are as follows:

19. COMPARATIVE INFORMATION

Certain comparative figures have been reclassified to conform to the current year's presentation.

20. CORRECTION OF AN ERROR IN PRIOR PERIODS

In 2016, the school division identified an error in how it accounted for the construction costs for the Mâmawêyatitân Centre and the contributions made by the City of Regina and the Regina Public Library to the construction of this facility.

The Mâmawêyatitân Centre is a new facility being constructed in Regina that will include the new Scott Collegiate rebuild, a child care facility, city recreational complex, public library branch and community policing centre. Prior to 2016, the school division accounted for 100% of the facility construction costs in its tangible capital assets, and reported the City of Regina (City) and the Regina Public Library (Library) contributions to the project as grant revenue. However, in 2016 the school division has determined that since the facility is jointly owned by the City, Library and school division, only the school division's 72.85% proportional share of the construction costs should have been included in the school division's tangible capital assets, and that the contributions from the City and Library should have been accounted for as reimbursement for their share of costs rather than as revenue. The result of the error was an overstatement of tangible capital assets, an understatement of accounts payable, an overstatement of revenue, and an overstatement of the accumulated surplus.

The 2015 prior period comparative amounts in the consolidated financial statements have been restated from those previously reported to correct for this error.

**REGINA SCHOOL DIVISION NO. 4 OF SASKATCHEWAN
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

- (1) Increase accounts payable for contributions received from the City and Library in excess of their share of project costs.
- (2) Reduce tangible capital assets for the City and Library shares of assets under construction related to the project.
- (3) Reduce opening accumulated surplus, revenue, operating surplus and ending accumulated surplus for contributions made by the City and Library for their share of project costs, previously recorded as grant revenue.
- (4) Reduce net financial assets at the beginning and end of the year for the increase in accounts payable related to contributions received from the City and Library in excess of their share of project costs.

21. JOINT-USE SCHOOLS PROJECT AGREEMENT

In August 2015, the Government of Saskatchewan entered into a 32 year public-private partnership with Joint-Use Mutual Partnership to design, finance, build and maintain three new schools, École Harbour Landing School, École Wascana Plains School, and Plainsview School in Regina, Saskatchewan on behalf of the school division. The

Government of Saskatchewan will be responsible for all capital, maintenance and operating payments over the term of the public-private partnership agreement with ownership of the schools vesting with the school division. Under the Accountability Agreement between the Government of Saskatchewan and the school division, the school division receives the benefit of payments made by the Government of Saskatchewan. Therefore, during period of construction, the school division will record capital grant revenue from the Ministry of Education and tangible capital assets on the percentage of completion basis.

22. PROFESSIONAL DEVELOPMENT

The Teacher's Local Implementation Negotiation Committee Agreement provides for a professional development allocation based on 0.59% of the teacher salary amounts reported in the audited consolidated financial statements. The allocation is calculated as follows:

	2016	2015
Operating Teacher Salaries	\$ 109,709,298	\$ 105,126,441
Complementary Teacher Salaries	1,826,905	1,687,516

Total Teacher Salaries	\$ 116,754,563	\$ 111,850,341
Professional Development Allocation @ 0.59%	\$ 688,852	\$ 659,917

23. RISK MANAGEMENT

The school division is exposed to financial risks from its financial assets and liabilities. These risks include credit risk, liquidity risk and market risk (consisting of interest rate risk and foreign exchange risk).

i) Credit Risk

Credit risk is the risk to the school division from potential non-payment of accounts receivable. The credit risk related to the school division's receivables from the provincial government and the City of Regina are considered to be minimal. For other receivables, the school division has adopted credit policies which include close monitoring of overdue accounts.

The school division does not have a significant exposure to any individual customer. Management reviews accounts receivable on a case by case basis to determine if a valuation allowance is necessary to reflect impairment in collectability.

ii) Liquidity Risk

Liquidity risk is the risk that the school division will not be able to meet its financial obligations as they come due. The school division manages liquidity risk by maintaining adequate cash balances and monitoring budgets.

The following table sets out the contractual maturities of the school division's financial liabilities:

	August 31, 2016			
	Within 6 months	6 months to 1 year	1 to 5 years	> 5 years
Accounts payable and accrued liabilities	\$ 19,827,103	\$ 548,089	\$ 1,285,502	\$ 201,400
Long-term debt (<i>includes interest</i>)	1,007,429	1,891,440	14,772,563	20,983,701
Total	\$ 20,834,532	\$ 2,439,529	\$ 16,058,065	\$ 21,185,101

iii) Market Risk

The school division is exposed to market risks with respect to interest rates and foreign currency exchange rates, as follows:

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The school division's interest rate exposure relates to cash and cash equivalents and portfolio investments.

The school division also has an authorized bank line of credit of \$20 million with interest payable monthly at a rate of prime less 1.00%. Changes in the bank's prime rate can cause fluctuation in interest payments and cash flows. There was no balance outstanding on this credit facility at August 31, 2016 (2015- \$NIL).

The school division minimizes these risks by:

- holding cash in an account at a Canadian bank, denominated in Canadian currency

**REGINA SCHOOL DIVISION NO. 4 OF SASKATCHEWAN
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at August 31, 2016**

- investing in GICs and term deposits for short-terms at fixed interest rates
- investing in government and Canadian charter bank bonds at fixed interest rates
- managing cash flows to minimize utilization of its bank line of credit
- managing its interest rate risk on long-term debt through the exclusive use of fixed rate terms for its long-term debt

Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The school division is exposed to currency risk on purchases denominated in U.S. dollars for which the related accounts payable balances are subject to exchange rate fluctuations; however, the school division believes that it is not subject to significant foreign exchange risk from its financial instruments.

24. PARTNERSHIP

The school division is constructing the North Central Shared Facility which will be known as the Mâmawêyatîn Centre, under a partnership agreement between the school division, City of Regina and Regina Public Library signed January 26, 2015. The purpose of the partnership is to develop and operate a Facility as an integrated gathering place for the community and to deliver programs and services for the public. Any distribution (recovery) of annual operating surplus (deficit) is shared between the partners according to their respective usage of the services.

The following is a schedule of relevant financial information as stated within the consolidated financial statements for the partnership for the year ended August 31, 2016. These amounts represent 100% of the partnership's financial position and activities.

	2016	2015
Capital Assets	\$ 28,981,363	\$ 9,670,044
Total Assets	\$ 28,981,363	\$ 9,670,044

The above capital amounts have been proportionately allocated in the school division's consolidated financial statements at the school division's partnership share of 72.85% (2015 – 72.85%). After adjusting the accounting policies to be consistent with those of the school division and eliminating transactions between the partnership and the school division, the following amounts have been included in the school division's consolidated financial statements:

	2016	2015
Capital Assets	\$ 20,584,560	\$ 6,876,553
